D. Software Testing and Evaluation

Date and Time	Key Test Issues	Test Activities
December 10, 2021	Login is unable to distinguish Admin from Student.	Include a category within the database table of users, which tells if it is an admin or student. Include within the login function an if-else statement that comparers the value of the said category.
December 12, 2021	Some added functions were causing errors since they could not access the database properly.	These function were removed instead since they weren't that required in the initial software design,
December 12, 2021	Some fields are still able to submit data to the database despite it being empty.	Add a "Required" prompt, which pops up when trying to submit a form with incomplete data.
December 14, 2021	Requesting for an account does not prompt an approval request in the admin side.	Replace the account requesting into a signup page, which does not need admin approval.
December 15, 2021	Incorrect page redirections for some pages when clicking specific buttons.	Update the php file to fit the proper page to link the buttons.
